

Market Size and Statistics

The original ASEAN+3 Bond Market Guide was published in April 2012 and included several pages of Viet Nam bond market statistics, including historical data such as bond holdings, bondholder distribution, outstanding amounts, and trading volumes. Not surprisingly, this data became stale soon after publication.

Since the ASEAN+3 Bond Market Guide is most likely to be updated only on a biennial basis, it is not the best channel for the dissemination of market statistics. Hence, a chapter comprising bond market statistics has been discontinued and replaced with a list of recommended sources for detailed, accurate, and current information sources on the Viet Nam bond market. These sources are listed below in alphabetical order.

- *AsianBondsOnline* (an ASEAN+3 initiative led by ADB)
<https://asianbondsonline.adb.org/new/economy/?economy=VN>
 - Market-at-a-Glance
 - Data (market size, yields, indicators, ratings, including historical data)
 - Market structure
 - Market summary
 - News (latest statistics)

- State Bank of Vietnam
 Annual Report 2015 (latest version, issued on 6 July 2017)
